We create chemistry

1 True Non-Repellent Pest Control of the Highest Quality

Alpine® WSG works without repelling pests, allowing them to contact treated surfaces naturally and transfer the active ingredient throughout social pest populations. It delivers more complete control where pests hide.

2 Difficult and Hidden Areas are Its Specialty

Alpine WSG tackles tough infestations in hard-to-reach areas such as cracks, crevices, voids and concealed harborage where pests live and breed. It supports deep, effective control, way beyond surface treatments.

3 Broad-Spectrum Performance Across Key Pests

Alpine WSG provides reliable control across a wide range of structural pests, including German cockroaches, ants, bed bugs, flies and occasional invaders. It supports both targeted treatments of active infestations and routine service.

4 Controlled Performance with Lasting Impact

Engineered for reliable performance each and every time, Alpine WSG helps to maintain control between service visits and reduces the need for frequent retreatments.

you achieve peak performance.

5 Flexible Label for Any Account

Approved for indoor and outdoor use, including food-handling areas, Alpine WSG is a versatile solution across residential, commercial and sensitive environments.

6 Application Flexibility to Fit Any Job

Compatible with multiple application methods such as handheld, backpack, truck-mounted sprayer and targeted treatments, Alpine WSG gives technicians the flexibility to work smarter across any service scenario.

7 Water Soluble Granule Convenience

Alpine WSG's water soluble granules dissolve into a clear, odorless solution that won't stain surfaces or clog equipment. This minimizes spills, avoids equipment clogs and improves the technician experience.

8 Technician Friendly

The three simple use rates for Alpine WSG reduce mixing errors and speed up technician workflow. This helps crews work faster and more consistently.

9 Proven Results That Build Customer Confidence

Alpine WSG's proven, long-lasting performance delivers consistent, visible outcomes that help technicians reinforce service value, improve satisfaction and support long-term customer retention.

10 Expert Support

Alpine WSG is backed by decades of research and dedicated customer support from BASF to help protect your business and your reputation.
